

JATIN VERMA

Aspiring Full Stack Developer (MERN Stack)

jv0043480@gmail.com | [+91 6005042752](tel:+916005042752) | [LinkedIn: Jatin Verma](https://www.linkedin.com/in/jatinverma) | [GitHub: jatinverma98](https://github.com/jatinverma98)

PROFESSIONAL SUMMARY

Computer Engineering undergraduate with hands-on experience building full-stack web applications using the MERN stack. Skilled in designing secure authentication systems, RESTful APIs, and role-based access control, with additional exposure to AI-driven data analytics. Seeking a full-stack or backend development role to apply strong problem-solving skills and a track record of delivering production-ready features.

EDUCATION

Examination	Board / University	Institute	Year	CPI / %
B.E. Computer Engineering	GTU	L.D. College of Engineering, Ahmedabad	2023 – 27	7.32 CPI
HSC (12th)	JKBOSE	Oriental Academy, Jammu	2022 – 23	88.4%
SSC (10th)	CBSE	Army Public School, Nagrota, Jammu	2020 – 21	91.2%

TECHNICAL SKILLS

Languages: C++, JavaScript, SQL, HTML, CSS

Frameworks & Libraries: React.js, Node.js, Express.js (MERN Stack)

Databases & APIs: MongoDB, RESTful APIs, JWT Authentication

Tools & Platforms: Git, GitHub, Postman

WORK EXPERIENCE & INTERNSHIPS

Full Stack Developer Intern — Codec Technologies

Feb 2026 – Mar 2026

- Developed and tested full-stack web features using Node.js, Express.js, and MongoDB, contributing to production-ready releases
- Built and tested CRUD REST APIs, ensuring reliable communication between frontend and backend
- Designed efficient database schemas to support fast, scalable data handling
- Collaborated with a cross-functional team to deliver features on schedule

AI Data Analytics Intern — InAmigos Foundation

June 2026 – July 2026

- Researched NGOs and collected and organized datasets to support AI-driven analytics projects
- Generated data-driven insights using AI tools and helped prepare structured analytical reports
- Maintained structured datasets in spreadsheets and identified trends to support decision-making
- Collaborated with the team to deliver accurate, well-documented solutions within project deadlines

PROJECTS

Placement Portal | MERN Stack

Dec 2025 – Feb 2026

- Designed and developed a scalable recruitment portal enabling job postings, applications, and role-based dashboards for students, companies, and administrators
- Implemented secure JWT-based authentication and complex MongoDB schemas to manage role-specific data flows
- Built RESTful APIs, enabling high-performance handling of concurrent job applications and secure sessions

Smart Hostel/College Complaint Management System (HSCCMS) | MERN Stack

- Built a full-stack complaint management system allowing students to submit complaints, staff to manage assigned issues, and administrators to monitor operations via a centralized dashboard
- Implemented secure authentication and role-based access control across three distinct user roles
- Integrated AI-powered complaint categorization to improve resolution efficiency

ACHIEVEMENTS

- Built and deployed multiple full-stack web applications using the MERN stack
- Completed a full-stack development internship with hands-on production experience
- Implemented secure authentication systems and REST APIs across real-world projects

AREAS OF INTEREST & HOBBIES

Areas of Interest: Web Development, Backend Development, Database Management Systems

Hobbies: Hockey, Basketball, Football
